KGHirotec Engineering Services Pvt. Ltd. Becomes Hirotec India Pvt. Ltd. and Opens a Second Manufacturing Facility in Pune, India

Coimbatore, India, May 23, 2010 -- The Hirotec Group would like to announce that KGHirotec Engineering Services Pvt. Ltd. is now Hirotec India Pvt. Ltd. This reflects the Hirotec Group commitment to bring best in class body-in-white closures to the Indian market by providing high quality, low cost hemming and flexible assembly systems.

Hirotec India now features two sites. The first location in Coimbatore was instituted in 2005 and provides cutting edge engineering and technical services. The second site in Pune is committed to providing lean body shop tooling, utilizing the latest manufacturing technologies to support the local and global market demand.

“We are proud to be a part of the continuous growth of the Indian automotive market and our facilities in Pune and Coimbatore allow us to deliver world class quality to our customers locally and globally,” said Brian Hopkins, Director and Executive VP of Hirotec India.

The Hirotec Group Companies have world wide sales in excess of 1.3 billion dollars and 21 global locations. For over 70 years, Hirotec Group has been providing innovative and highly flexible products and solutions to automotive industry around the world. For more information about Hirotec India Pvt. Ltd, please visit our website at www.hirotecindia.com
